

# Banaroo, Coming home for Christmas

1.

Night has come, the day is done  
With been on a road is so long  
We've been on the road so long  
Pictures of you  
Making me blue  
Feel this moment wrong and true  
When I look inside my mind  
I will never find  
Someone like you

ref.

Now I'm coming home for christmas  
Where you hold me in your arms  
Knowing you will never let me down  
Coming home for christmas  
Counting all the stars  
And one of them is shining just for us

2.

Every day  
While I'm away  
Hope our love is here to stay  
All that I do  
Is longing for you  
And I hope you feel it too  
Now the snow is falling down  
See the lights of my home town  
Show me the way

ref.

Now I'm coming home for christmas  
Where you hold me in your arms  
Knowing you will never let me down  
Coming home for christmas  
Counting all the stars  
And one of them is shining just for us

3.

When the nights so cold  
And I am feeling blue  
I just close my eyes and dream away to you

ref.

Now I'm coming home for christmas  
Where you hold me in your arms  
Knowing you will never let me down  
Coming home for christmas  
Counting all the stars  
And one of them is shining just for us  
Now I'm coming home for christmas  
Where you hold me in your arms  
Knowing you will never let me down  
Coming home for christmas  
Counting all the stars  
And one of them is shining just for us  
Coming home for christmas
