

Banaroo, Is It Love

Is it Love is it really love you want from me
Is it Love we can be together you and me

We could be so fine together
tell me this could be forever
Baby youre the one who makes
me feel so free
We can share a love so heavenly

If you need somebody
to give you some sweet loving
all you gotta do is call my name
If you want me truly
Im gonna give it to you
all you gotta do is call for love

Is it love
Is it really love you want from me
is it love
we can be together you and me

Im so glad that I found you Babe
And I swear I always will be true
Baby youre the one who makes
a brighter day
take my hand and tell me that youll stay

If you need somebody
to give you some sweet loving
all you gotta do is call my name
If you want me truly
Im gonna give it to you
all you gotta do is call for love

Is it love
Is it really love you want from me
is it love
we can be together you and me
