

Banaroo, Let`s Keep The Fire Burning

Lets keep the fire burning
I feel it in my heart
You know the world is turning
Until we fall apart
Im waiting for a sign
Lets keep the fire burning
Until the end of time
Theres something in the fire
Like diamonds in the sky
Devotion and desire
I love you til I die
I need you by my side
Lets keep the fire burning
A candle in the night
Im dreaming by the fire
Its only me and you
Cause when you take me higher
Theres nothing I can do
Youre always on my mind
Lets keep the fire burning
Until the end of time
