

Banaroo, Livin' In A Red Balloon

Right from the start i gave you my heart
but you take the other way
deep in my soul im out of control
why dont you stay?

I only wanna have you next to me
im waitin til eternity
so if you ever feel the same for me ill be
down on my knees

livin in a red balloon with you
we can fly away
all that i need is a little bit of your love
someday
livin in a red balloon with you
we can fly away
all that i need is a little bit of your love
someday

since youve been gone
everythings wrong
you made the perfect day
one of a kind
youre still on my mind
when will you say:

i only wanna have you next to me
im waitin til eternity
so if you ever feel the same for me ill be
down on my knees

livin in a red balloon with you
we can fly away
all that i need is a little bit of your love
someday
livin in a red balloon with you
we can fly away
all that i need is a little bit of your love
someday
