

Banaroo, Sing And Move (La La La Laaaa)

I had a dream of sweet emotion
(But) Any day you can break my heart
I know youre mine, but Im waiting for devotion
Lets make another start
Come on baby, shake all your booty
(Cause) we are young, we are out of control
Break the rules, you will see its party-time tonight
Youre the rhythm to my soul
Sing and move - sing and move
we get into the groove
step by step every beat
up and down to the heat
sing and move - sing and move
we get into the groove
Nothings gonna stop us now
La la la laaaa, la la la laaaa
Thats all I wanna do
La la la laaaa, la la la laaaa
Its only me and you
An endless night of inspiration
Hold me tight cause I know its true
Follow the beat, cause my heart is beating next to you
And my bass is pumping too
Still remember the day in September
(You) took my hand but I took control (and)
Upside down, oh baby you turn me around
Youre the rhythm to my soul
When your night is black
Or your day is blue (and)
Stand by my side and begin anew
Leave your troubles behind
Make your dreams come true
Its only me and you
