Grab your hat grab your coat yes were gonna take a ride
to end of the universe do u wanna ride
we will speed through the galaxy
never looking back
now let your travels begin

just release and relax, it s a new experience
put your hand in the air as the engine starts to spin
there is no holding back, it s the perfect consequence
lets watch the magic begin

Free your heart free your mind, on this journey you will find
secret truth to unfold, if u really want to ride
press the gas, Step in gear,
now our rockets gonna fly
leave your troubles behind

close the door, turn the key if u wanna ride with me
there will be no escape once we reach the count of three
press your thumbs, let us run, yes it s gonna be a blast
i see the stars in your eyes

as we soar through the universe
we just fly, we just fly to sky
so high to the sky

Spacecowboy i just wanna fly
Right up to the sky
Spacecowboy i just wanna fly to the sky

I just wanna fly, doo doo be doo be doo
Right up to the sky
I just wanna fly, doo doo be doo be doo
Take me to the sky
