

# Banco Del Mutuo Soccorso, They Say Dolphins S

When the tempest ended

For a while I wandered

Through the corals  
I felt the sea with its weight on my skin

And I despaired of jumping again in the sun  
But the desire for immensity

Shook my spine once again

And I was able to rise from the abyss  
Do not shun the waves

Though they bring the scent of the harpoon  
If it should strike it will not stop your leap

It penetrates, but you&#039;ll discover your strenght  
And the desire for immensity

Will stir you once again  
So let the salt from the sea

Cleanse your heart
