Band, The

Miscellaneous

Change Is Good

Change is then, change is now  
Change is what, change is how  
Change is this and change is that  
Change is where change is at  
Change is good

Change is yes, change is no  
Change is everywhere you go  
Change is right, change is wrong  
Change is here, change is gone  
Change is good

You can change your life  
Find a new way to go  
You can change your world  
You don't even know  
Life's a long road  
Lighten up your load  
Change is good

You can run but you can't hide  
From the things you feel inside  
You can laugh or you can cry  
Kiss all your tears goodbye  
All you got to do  
Is try and try you should  
Change is good

Change is high, change is low  
Changes come and changes go  
Change is this and change is that  
Change is where change is at  
Change is good

You can pine your life away  
Let others pass you by  
You can climb a mountain high  
Like an eagle in the sky  
All you got to do  
Is try and try you should  
Change is good

Change is never done  
Something better has begun  
A change is gonna come

Change is good
