Rags, bones and old city songs

Dmaj7□□ e7sus4 a

Hear them, how they talk to me

Trolley car rings out the morning

Whistle blows at noon

A cat fight breaks open the night

While watch dogs bay at the moon

A preacher on an orange crate

With a salvation army band

And clicking along the cobbled stones

That's the sound of the ice-cream man

Comin' up the lane callin'

Workin' while the rain's fallin'

Ragman, your song of the street

Keeps haunting my memory

Music in the air

I hear it ev'rywhere

Rags, bones and old city songs

Hear them, how they talk to me

The organ grinder and his monkey

Still walkin' the same old beat

The shoe-shine boy slappin' leather

He puts the rhythm in your feet

Strollin' by the churchyard

List'nin' to the sunday choir

With voices rising to the heavens

Like sirens screaming to a fire

Comin' up to the lane callin'
Workin' while the rain's fallin'
Ragman, your song of the street
Keeps haunting my memory
Music in the air
I hear it ev'rywhere
Rags, bones and old city songs
Play them one more time for me
