Band, The  
Miscellaneous  
Shake This Town

I see the people standing on the shore  
I see the big chief standing on the shore  
I ask my mama what they're crying for

I saw a black cloud hanging in the sky  
I saw a big black cloud hanging in the sky  
I ask my papa when will it roll by

Oh we're standing on the edge of the world  
Oh we're standing out here  
On the edge of the world

Chorus:  
Come on brother we gonna shake this town  
Come on sister we gonna shake this town  
Come on children we gonna shake this town  
Down to the ground

Can't draw no water no more  
From the drinking well  
Can't grow no corn no more out here on my land  
We're at the mercy of the government man

Then i followed you followed you we did pray  
How can you promise me promise me  
Come what may  
Where you gonna turn to on a judgement day

Oh we're standing on the edge of the world  
Oh we're standing out here  
On the edge of the world

Chorus

That's the story
