Until We Meet Again

Words cant express just how I feel

Keep them bottled up inside my heart

I only wish youd understand

That the strong and the lasting and the real

And I miss the way you cry, the way you correct me when I am out of line

I miss your laugh I miss your voice

Ive only kissed you once or twice but once again that would be nice

Until we meet again

I know that now its not too easy

But well work through the bad times till the good

As for me, I have my doubts

In the end, it will work out how it should

And I miss the way you cry, the way you correct me when I am out of line

I miss the way you laugh I miss your voice

Ive only kissed you once or twice but once again that would be nice

Until we meet again

Never knew it took so much to realize youre the one for me

Now Im holding myself back

Gonna wait for you

I promise you that all this trouble will be worth it while

But until then, until then, until we meet again

For now Ill see you in my dreams

Even though they never really last

The only thing that keeps me going

Is soon well be together and these dreams will be the past

And I miss the way you cry the way you correct me when I am out of line

I miss your laugh I miss your voice

Ive only kissed you once or twice but once again that would be nice

Until we meet again [x2]
