

Bang Band SiXXX, It's Been So Long

baby, I've been hiding
but I couldn't hide from you
you know that I've been trying
but I couldn't lie to you

and all of this time
all that I've done was to keep it out of the way
now I was (?) as we were watching the night slowly fade to day

I can't believe I found you
in a place as empty as this
it's been so long since I found love
it's been so long since I found love

you say you feel like you know me
and our souls are intertwined
you tell me all of your secrets
and I tell you some of mine

I can't believe I found you
in a place as empty as this
it's been so long since I found love
it's been so long since I found love
