

# Bang Gang, Something Wrong

I can feel what is wrong  
I can do what you want  
I can feel what is wrong  
I can do what you want  
I can feel what is wrong

Can you feel what is wrong  
Can you do what you want  
Can you feel what is wrong  
Can you do what you want  
I can feel what is wrong

Above all the clouds  
Above all the clouds  
Above all the clouds

I can't cry anymore  
Can you heal what went wrong  
I can't cry anymore  
Can you heal what went wrong  
I can't cry anymore

Help me to feel my soul  
Help me to end it all (falling down)  
Help me to feel my soul  
Help me to end it all  
Help me to end it all

Above all the clouds  
Above all the clouds  
Above all the clouds
