

# Bang Tango, Do What You're Told

Sister your time has come  
Got to lay it down, got to get things done  
But you're looking so hard and you just can't see  
Trying so hard dragging on me  
I'll tell you something, baby  
I'll tell you what I know  
It's oh, so cold do what you're told  
It's hard when they're telling you no  
I said, it's oh, so cold, do what you're told  
With all the lies that they hold inside their hands  
Mother, got to lay it down  
To be number one on this side of town  
But you're looking so hard you just can't see  
Trying so hard dragging on me  
I'll tell you something, baby  
I'll tell what I know  
It's oh, so cold do what you're told  
With all the lies that they hold inside their hands  
Stop those lies just don't see  
Stop those lies, get away from me  
It's oh, so cold do what you're told  
It's hard when they're telling you no  
I said, it's oh, so cold, do what you're told  
With all the lies that they hold inside their hands
