Bangles, The
Everything
Crash And Burn
(v. peterson/r. sweet)

L.a. to reno
Checking out the scene-o
Feeling so mean-o
Sometimes i wish i could crash and burn

Winding through the hot night
Without my headlights
20/20 hindsight
Sometimes i wish i could crash and burn

Crash and burn
And i never ever felt so lonely
Crash and burn
Can't look them in the eye
Just want to drive and drive and drive

Going nowhere
And i don't care
Can't wait 'til i get there
Sometimes i wish i could crash and burn

Fifty, sixty, seventy, eighty, ninety
Gotta be a place where they can't find me
Watching all those bridges burn behind me

And if i can't see
What's passing me
Nothing's gonna touch me and i'll fly
I wish i could crash and burn

On my philco
I hear an echo
There was a wreck-o yesterday
And by tomorrow
They'll clean the char-o
And wash the tar and trouble away

I wish i would
I wish i could
I wish i would
