

Baracuda, I Leave The World Today

The winters told me everything
but I am on my way
I don't need no more diamond rings
I leave the world today
But you can tell a thousands lies
to think that I would stay
'cos I am not a fool for you
I leave the world today

Refren:

and I, I leave the world
I leave the world today
'cos I, I leave the world
I leave the world today
The morning comes and I have left
'cos I am on my way
I don't belive in words like that
I leave the world today
No matter how you try to be
no matter what you say
but I am not a fool for you
I leave the world today
Refren
