

# Barbados, The Power Of Love

Chorus:

The power of love, will take us tonight  
And hearts made of gold, they sing in delight  
Emotions for real, we dance to the beat  
The power of love is all that we need!

I've been waiting for this night so long  
I can't take in much longer  
And the thought of getting close to you  
Oh, it makes me losing my mind  
In the heat of the night you and I, wrote the light I ever needed to survive this night  
And I know  
You been giving it all, you been loving me more  
Cause all we need is :

CHORUS: .....

There were times I didn't understand  
I was praying for someone  
Couse I've never been this sure before  
You're the reason, the man that I am  
Angels sing in the sky for us now  
And we share all lucky love, all lucky time I know,  
That tonight,  
I'll be giving it all  
I'll be loving you more  
Couse all we need is:

CHORUS: .....

&quot;come near me closer&quot;  
-And hold me tight  
&quot;My heart's on fire&quot;  
- I need you tonight!

CHORUS: .....

Will take us tonight  
They sing in delight  
Emotions for real, we dance to the night  
The power of love, the power of love!
