

Barbara Fairchild, Kiss Away

Kiss away kiss away guess that's all that's left to say
Please come back and kiss these tears away
Smile again let me smile again make my life worthwhile again
Please come back and kiss these tears away

Only you can change these sad and blue days
Only you can make them I-love-you days
So kiss away kiss away still there's nothing left to say
Please come back and kiss my tears away
Only you can change...
