

Barbara Mandrell, Some Things Never Change

(Kye Fleming - Dennis Morgan)

They say that times are getting harder
Well that's easy to say
And this crazy world can't go much farther
It's spinning faster each day
But not everything has changed

Chorus

Kids still get restless on rainy days
Lilacs still fill the air in spring
Love's still the only word that I can use in telling you
The way I feel and I'll love you always
Some things never change

Seems like we're always in a hurry getting no where fast
We're all wrapped up in work and worry but all of that will pass
It's the simple things that last

Chorus

After all that we've been through
Love is still the same
