

Barbershop & Various Artists, What's Come Over

Ever since I've met you girl
You've had this crazy way of making me feel
Don't get me wrong I'm not here trying to fall in love
But something's changing me
You're laughin', acting crazy
Girl, you always put a smile on my face
You know just how to chill this thug mentality
I put on for others to see
Something strange is happening to me
I don't know what it is but it's feeling so good to me
I'm used to being so cool, laid back and in control
But what's come over me?
I don't mean to make it seem like I'm taking this too seriously
But I just wanna let you know what's on my mind
Can't you see what we could be?
Got me buggin', oh I'm sacrificing myself
I'm here singing this to you
See I just couldn't face myself
Knowing that I didn't just tell you the truth
Something strange is happening to me
I don't know what it is but it's feeling so good to me
I'm used to being so cool, laid back and in control
But what's come over me?
Something strange is happening to me
I don't know what it is but it's feeling so good to me
I'm used to being so cool, laid back and in control
But what's come over me?
If by chance you should find yourself falling deep in love
You know you can count on me
Just like a thief in the night
You come and taken the only way I know how to be
You stole my heart from me
Something strange is happening to me
I don't know what it is but it's feeling so good to me
I'm used to being so cool, laid back and in control
But what's come over me?
Something strange is happening to me
I don't know what it is but it's feeling so good to me
I'm used to being so cool, laid back and in control
But what's come over me?
Yeah, yeah, yeah
Up and down
Your love, your love
But what's come over me?
I don't know
