

# Barbra Streisand, Above The Law

(Barry Gibb, Barbra Streisand & Stephen Gibb)

[Barbra:]

This is me talking to you  
Tell me what your heart can do ?  
Take me by surprise, whatever you see  
You'll never be alone with me

I close or open the door  
Telling you that less is more  
You cannot disguise whatever you do  
No one is above the law

In these dark and troubled times  
People just surviving  
We live a double life

You'd be safe and warm at home  
Something else is going on  
We don't have to kiss and say no more about it  
And if your eyes are watching me

[Both:]

Baby, life could be so beautiful  
And we become invisible  
The pleasure is the punishment  
For the crime

[Barbra:]

Break away the chains that bind  
It's not enough to be satisfied  
It's knowing how it all begins  
Or knowing where the heart belongs  
And we all make mistakes

[Both:]

It's your heart and my heart  
And no one can take part  
And our love  
Is love above the law

[Barry:]

So you decide we go insane  
I know what you came here for  
Whether you are mine  
I'll never be sure  
We'll ever be above the law  
On this dark and stormy night

[Barbra:]

(Hmm hmm...)

[Barry:]

Where these walls may hide us

[Barbra:]

(The walls may hide us...)

[Barry:]

You sigh and let me in  
You let me hold you in these arms of mine

[Barbra:]

(One flame inside)

[Barry:]  
Tomorrow is eternity

[Barbra:]  
(Temptation eyes)

[Barry:]  
And we may get to kiss and say no more about it

[Barbra:]  
(No tears to cry)

[Barry:]  
And if my eyes are watching you

[Both:]  
Baby, life could be so beautiful ([Barry:] So beautiful)  
And everything is possible ([Barbra:] Everything is possible)  
And we become invisible ([Barbra:] We become invisible )

It's your heart and my heart  
And no one can take part  
I'll always be with you  
It's what I'm living for  
The end of my rainbow  
Is outside your window  
And our love is one love  
Love above the law ([Barbra:] Love above the law )  
It's your heart and my heart  
And no one can take part  
I'll always be with you  
It's what I'm living for ([Barbra:] It's what I'm living for )

The end of my rainbow  
Is outside your window  
And our love is one love

[Barbra:]  
This is me talking to you  
Tell me what your heart can do?

[Fade]
