

# Barbra Streisand, Where's That Rainbow

Barbra Streisand  
My Name Is Barbra Two  
Where's That Rainbow  
Troubles really are bubbles they say  
And i'm bubbling over today  
Spring brings roses to people you see  
But it brings hay fever to me  
My luck will vary surely  
That's purely a curse  
My luck has changed,  
Yes it's gotten from rotten to worse  
Where's that rainbow you hear about  
Where's that lining they cheer about  
Where's that love nest where love is king ever after  
Where's that blue room they sing about  
Where's that sunshine they fling about  
I know morning will come but pardon my laughter

In each scenario you can depend  
On the end where the lovers agree  
Where's that lutherio  
Where does he roam with his dome  
That's as lean as can be  
Oh, it is easy to see alright  
Everything's gonna be alright  
Be just dandy for everybody but me  
In each scenario you can depend  
On the end where the lovers agree  
Where's that lutherio  
Where does he roam with his dome  
That's as lean as can be  
Oh, it is easy to see alright  
Everything's gonna be alright  
Be just dandy for everybody but me  
Oh yeah, i see that rainbow  
For everybody but me
