

Barclay James Harvest, Back To Earth

I've been so sad since you went away
I've been so lost without you
I wanted to be there
I wanted to hold on and tell you
How much, how much I loved you
I never thought that this day would come
Never dreamed we'd have to part
And now that you're gone and there's only memories
It's left such a hole, hole in my heart

Whenever skies are cloudy and the raindrops fall
I pray that you'll be waiting to catch me when I fall
So many words that were left unsaid
So many things still to share
And through all the tears and all of the memories
I hope that you know how much I cared

If I could have you back I wouldn't waste a minute
A lifetime wasn't long enough, I needed you for ever
The love of a father, the friendship of a brother
You took a piece of me with you and it will never be returned
Until we meet again and things will be the same

Whenever skies are cloudy and the raindrops fall
I pray that you'll be waiting to catch me when I fall
I've been so sad since you went away
I've been so lost without you
I wanted to be there
I wanted to hold on and tell you
How much, how much I loved you

I never thought that this day would come
Never dreamed we'd have to part
And now that you're gone and there's only memories
It's left such a hole, hole in my heart

If I could have you back again I wouldn't waste a minute
A lifetime wasn't long enough, I needed you for ever [John Lees, BJH Ltd/Handle Music Ltd]
