

# Barclay James Harvest, Child Of The Universe

I'm a child of South Africa  
I'm a child of Vietnam  
I'm a child of Northern Ireland  
I'm a small boy with blood on his hands  
Yes I'm a child of the universe  
Yes I'm a child of the universe  
You can see me on the TV every night  
Always there to join in someone else's fight

I didn't ask to be born and I don't ask to die  
I'm an endless dream, a gene machine  
That cannot reason why

Yes I'm a child of the universe  
Yes I'm a child of the universe  
You can see me on the TV every day  
I'm the child next door three thousand miles away
