

Barclay James Harvest, Following Me

Standing before me
Light shining into my eyes
Telling the story
You wandered into my life
Without your sweet love
Where in the world would I be
Love is the reason
You're following me
I try to hear you
Voice echoes into the night
You giving me your heart
I know that the feeling is right
Without your sweet love
Where in the world would I be
Love is the reason
You're following me

Come with me
Take a chance for our lives to be free
On and on
That's the way that we want it to be

I can see a new tomorrow
Maybe I'm dreaming
And the song we'll sing together
We can believe in
High above the clouds we're drifting
See how we're flying
Can you feel the music lift you
Higher and higher

Standing before me
Light shining into my eyes
Telling the story
You wandered into my life
Without your sweet love
Where in the world would I be
Love is the reason
You're following me
