

Barclay James Harvest, On The Wings Of Love

Close my eyes and dream the time away
Like the shadows in the night
Count the hours until the break of day
There's something missing from my life
Can you see me as you listen to the radio
Hope the message carries through
I can see you waiting, waiting on the other side
This song I sing is just for you

And I think it's gonna be all right
Sailing into the night
I'm gonna be flying high, higher than before
And it seems like an endless flight
Ooh, flying on the wings of love

Ooh, can you hear me talking down the line
Way out in the lonely night
And we both know
It's just a matter of time
Till we see the morning light

And I think it's gonna be all right
Sailing into the night
I'm gonna be flying high, higher than before
And it seems like an endless flight
Ooh, flying on the wings of love
