

Barclay James Harvest, Prisoner Of Your Love

Got a good feeling
When she walks by
Got to move closer
She makes me high
The touch of her body
I feel next to mine
Every action
Moving in time

You got the power to start me burning up
You got the kind of love I need
And you could stop the world from turning round
The kind of love I can't believe
You lock me up and throw away the key
I'm a prisoner of your love

She's a woman of wonder
Just look in her eyes
It's a spell that I'm under
And she'll hypnotise

You're one in a million
You do it right
You're sending me crazy
Make it tonight

You got the power to start me burning up
You got the kind of love I need
And you could stop the world from turning round
The kind of love I can't believe
You lock me up and throw away the key
I'm a prisoner of your love

First time that I saw you, girl
I knew my eyes were open wide
And the world just seems a better place
As long as you are by my side
