

# Barclay James Harvest, Say You'll Stay

Dreams and castles  
We build them constantly  
Who will see what we've done before?  
Thoughts that follow me  
Fools of destiny  
This is what we've become

Say you'll stay with me  
I just want to be  
Here with you  
Say you'll stay with me  
I just want to be here

Taking chances with  
Time that passes us  
Who can tell what will be?

Words that call to me  
Eyes that try to see  
Make it all mystery

Say you'll stay with me  
I just want to be  
Here with you  
Say you'll stay with me  
I just want to be here

Can you hear those little people  
Tell me what to do?  
They cannot see there's no tomorrow  
But for me and you

Say you'll stay with me  
I just want to be here...
