

Barclay James Harvest, Say You'll Stay

Dreams and castles
We build them constantly
Who will see what we've done before?
Thoughts that follow me
Fools of destiny
This is what we've become

Say you'll stay with me
I just want to be
Here with you
Say you'll stay with me
I just want to be here

Taking chances with
Time that passes us
Who can tell what will be?

Words that call to me
Eyes that try to see
Make it all mystery

Say you'll stay with me
I just want to be
Here with you
Say you'll stay with me
I just want to be here

Can you hear those little people
Tell me what to do?
They cannot see there's no tomorrow
But for me and you

Say you'll stay with me
I just want to be here...
