## Barclay James Harvest, Someone There You Know

I've been looking for a place that I know well
It's a long long way from here and when I get there
I will tell, I will tell
I've been looking for a time that I once knew
I could spend some happy hours just being there with you
It doesn't matter where you go
As long as there is someone there you know

So if you need a friend you can depend on me 'Cause I know what it feels to be alone And in the darkest night you need a light to see Your shadow's sinking low Just like a stone Feels like a broken bone Guess I'll go on home

I've been looking for someone I know so well She's a long long way from me and when I find her I will tell her It doesn't matter where she goes As long as there is someone there she knows
