

Barclay James Harvest, Sperratus

Look in my eyes
See the light of the universe
I'm man, born of God
Not a clown in disguise
My skin is bronze
My hair is gold
The power within me lights the way
To wealth and fame
All in my name, the final goal

Shout it, shout it, shout it out loud
Sing it, sing it, sing to the crowd
Call out, call out, call out from afar
Make them, make them, make you superstar

Look in my face
See the light
Of a thousand stars shine bright
In the night
As I step
From the stage

Don't burn your hands
On my skin
You can't touch what's deep within
That's my soul
Reaching my final goal

Shout it, shout it, shout it out loud
Sing it, sing it, sing to the crowd
Call out, call out, call out from afar
Make them, make them, make you superstar
