Barclay James Harvest, Sperratus

Look in my eyes
See the light of the universe
I'm man, born of God
Not a clown in disguise
My skin is bronze
My hair is gold
The power within me lights the way
To wealth and fame
All in my name, the final goal

Shout it, shout it, shout it out loud Sing it, sing it, sing to the crowd Call out, call out, call out from afar Make them, make them, make you superstar

Look in my face See the light Of a thousand stars shine bright In the night As I step From the stage

Don't burn your hands On my skin You can't touch what's deep within That's my soul Reaching my final goal

Shout it, shout it, shout it out loud Sing it, sing it, sing to the crowd Call out, call out, call out from afar Make them, make them, make you superstar
