

Barclay James Harvest, The, Where Do We Go

Barclay James Harvest, The
Welcome To The Show
Where Do We Go
When you're all alone
And the dreams are waiting at your door
By the telephone
No-one to talk to any more
Where did we go wrong
Waited far too long

When you're worlds apart
All feelings seem to disappear
And the night is dark
You used to make it all so clear

Where did we go wrong
Waited far too long

Where do we go
And where is the love you once gave me?
I want to know
Where is my life, can't you save me?
Oh, i thought you were a woman of love
Oh, we could have been in heaven above

Where did we go wrong
Waited far too long

Where do we go
And where is the love you once gave me?
I want to know
Where is my life, can't you save me?
