

Barcode, Animoshity

My life would make you break down
My call can set you on time
But when you ask for my help I TURN AND WALK AWAY
Don't please me, ease me, shut the f**k up!
Act like a simple disgrace
That only makes it on TV
I make the rules it's my race
Publicity shaking me, making me
ANIMOSITY!
I am, I never would try
To catch a warning hint
Why?
This life would make you break down
A snap can set you on time
But when you ask for my help I TURN AND WALK AWAY
I never talk the talk straight
My ego ain't got a friend
And if on time is too late I WILL NOT HESITATE
I'm filling your head up with lies
You're thanking me patting my shoulder
F**king you up when you try
To please me, ease me, get off my back
I AM NOT TO TRUST!
I'm never taking the blame for none
And you're proud to tell that you know a bad-assed guy
