

Barcode, Dringslinger

Alright y'all

Long time no see, good to be back

Host of the finest, my friend you're the best

This town, this bar, Lord of my dreams

Start the merry-go-round, fill me up, knock me down

Pouring wine, serving drought with style

Getting laid by your booze feels great

Master, ruler, drink slinger, God

Tender you got me by the balls

Can't get enough, wanna get loaded and fucked

Boozt me, blast me, fill me up

Smash my pitiful body with best you've got

As long as you are able to load me, I'll be your slut

Hey, hey, hey

Set for sin and I'm playing to win

Hooked at the bar, I'm a rock
