

# Barcode, Worldsaviour

I heard you snotnose punkass  
I heard you - fuck you too  
Sometimes it's spit or swallow  
Sometimes it's up to you  
Sometimes there ain't no reason  
Sometimes it's time to leave  
'Cause if you keep on bugging  
It might fire back at you  
I don't feel an urge to save the world  
So please count me out  
I don't feel no need to scream and shout  
Any revolution way out  
Go bark up someone else's tree  
'Cause I'm not in the mood  
I heard you fuck you too
