

Bardo, One Step Further (Eurovision 1982)

One step further and I would have been there
Can't seem to get your attention no matter how I try
I just want you to prefer me to the other guy
So when you looked at me
You only turned away
So I walked up beside you
But I forgot all the things that I planned to say
And I know if I tried too
I could have taken
One step further and I would have been there
You could have turned around and hit me and I wouldn't have cared
All this time I didn't get anywhere
I could have taken
One step further and I would have been there
Ain't got the courage to speak when you're sometimes near
Well I can't seem to think of the things that a girl likes to hear
So when I saw you again you were all alone
So I walked up beside you
but I was too shy to even ask you home
And I know if I tried too
I could have taken
One step further and I would have been there...
You could have turned around and hit me and I wouldn't have cared
All this time I didn't get anywhere
I could have taken
One step further and I would have been there
You read my letters or my telegram
You'd have got around to asking me just who I am
But you know I'm gonna get you
I'm gonna get you
I'm gonna get you
One step further and I would have been there
You could have turned around and hit me and I wouldn't have cared
All this time I didn't get anywhere
I could have taken
One step further and I would have been...
One step further and I would of been there
You could have turned around and hit me and I wouldn't have cared
All this time I didn't get anywhere
One step further and I could of been there
You could have turned around and hit me and I wouldn't have cared
All this time I didn't get anywhere
I could have taken
One step further and I would have been...
One step further and I would of been there
I could have taken one step further
One step further and I would have been there
One step, one step!
