

# Bardot, Down

Bardot

Bardot

Down

Down, down, down, down [repeat]

Look what you're doing to me

'Cause I don't want you to leave

Wish I could stop you somehow

But you're out of plain now

I want you please to come back to me

(Back to me)

I need you with me to make it

(I need you with me to)

If this is how it's meant to be, boy

Then I just can't take it

[Chorus]

I'm so down

When I'm not around you

(When I'm not around you, baby)

I'm so down I feel so blue

When I can't see you

(When I can't see you)

I've got this feeling in me

And I just can't seem to breathe

As I look up in the sky

You never say goodbye

I want you please to come back to me

(Back to me)

I need you with me to make it

(I need you with me to)

If this is how it's meant to be, boy

Then I just can't take it

[Repeat chorus]

Why do you hurt me so much, boy?

You make me feel down

But I'm hurting and hoping and praying

That you'll still be around

[Repeat chorus to fade]
