I Need Somebody

Thanks to michael2001_@hotmail.com for these lyrics.

Don't need anybody messin with you
I want you just the way you are
Don't want anything that you can give me
Keep your money and your car

You bring me your joy
And your love it makes me sing
It's got me going
It feels like a dream
My heart is on fire and filled with such desire
Now I promise to be where you are

I need somebody
I want a lover and a good love too
I want somebody
That
