

# Bardot, Other Side Of Love

Bardot

Bardot

Other Side Of Love

Other side of love, other side of love

There was another

She took your trust and threw it away

Leaving you lonely

For too long, so long

I know you've been broken-hearted

It cut so deep you never thought the hurting would end

Just try to forget her, just be strong, hold on

I'm here (I'm here)

For you (for you)

Gonna make you believe, yeah

[Chorus]

This is the other side of love

Babe I'll give you everything

You've been dreaming of

After all you've done for me

No one told you there was

An other side of love

God must have delivered

A message from above

The day you came to me

We saw the other side of love

Picture a summer day

A gentle breeze to blow all your troubles away

A picture of happiness

That will stay always

I'm here (I'm here)

For you (for you)

And always will be, yeah yeah

[Repeat chorus]

I happen to know the way you feel

It's happened to me so many times

But baby believe in me

I swear this is the other side

Other, otherside, other

[Repeat chorus to fade]
