

# Bare Naked Ladies, Maybe Katie

Bare Naked Ladies

Miscellaneous

Maybe Katie

CHORUS (x2):

What's so maybe about

What's so maybe about

What's so maybe about Katie?

What's the use in hesitating?

Can't you see that Katie's waiting?

Just because her youth is fading

Doesn't mean that she's not worth dating

CHORUS (x2)

I don't know what the fuss is all about

Just take it slow

It's not like you can't live without her

To and fro

If you've got a shred of doubt then it's not worth it

CHORUS (x2)

Can't you see her with her arms wide open

She's everything that you've been hoping for

Forever's not so long, stop moping

She's got a daughter and you're just not coping.

Do you know everyone you ever swore you'd love for life

I don't know them anymore

I know their names

I'd recognize them on the street and I don't love them

CHORUS (x4)
