

# Barenaked Ladies, I Love You

[Chorus]

I love you  
And you love me  
I love you  
So let's make a family tree

I like soup, and I like ice cream sandwiches too.  
I like fish sticks,  
but I love you.  
You don't believe me, you say all I think about's myself.  
Let me explain, don't walk away.

I love me  
You love you  
I Love me  
So what are we to do?

How would you know that I love you so?  
I don't say too much  
Why are you blue whenever I'm in town?  
I guess life was fine till I came 'round.

You've given me a start, I ain't no doctor  
but just take a look at the chart for my heart  
like a dart from the start I'm coming  
down with something good.  
It ain't no fever or flu, doctor says it had  
to be someone with brown hair and blue eyes, I'm  
lovesick for you I realize.

I's loves you  
And youse loves me.  
I's loves you  
So let's make a family tree.

How did you know that I loved you so?  
I don't say too much.  
Why are you blue whenever I'm in town?  
I guess life was fine till I came 'round.

[Chorus]
