

Barlow Girl, Open Heavens

A cry rises from the ground
As all the earth begins to shake
Can you feel the spirit move you?
Calling all hearts to wake
Life is rising from these graves
A voice breaks the silence
And warms the dying heart
Oh, this is just the start
'Cause we will open heavens
And well start the flame now
All the earth will shake now
As we scream Your name
Arise, heaven open wide
Passion filling every place
And nows the time
So let it move you
Cause something is about to break
We are falling on our face
Searching for movement
Give us fire in these days
Oh Spirit, lead the way
Hallelujah
Singing Hallelujah
Well cry out from our hearts now
