

# Barlow Girl, Our Worlds Collide

Tonight the stars are dancing  
To the songs the angels sing  
I hear You whisper on the breeze  
And every sound echoes the rhythm  
Of your heart as I begin to fade  
Into this lovely night  
Im alive  
Cause our worlds collide  
Im lost in time  
Heaven kisses me tonight  
Your heart with mine  
It beats in time  
Now I know why Im alive  
Now that Ive found You  
I could never let You go away  
You left my life never the same  
Sing over me and let me hear the words You wrote for me  
Whisper the words and set my spirit free  
Oh, sing to me
