

# Barlow Girl, Sing Me A Love Song

The tension is thick in the air  
Making it hard to see  
I fear what is to come  
And what will become of me  
I say a prayer help me not run away  
Will you please hold me  
And sing me a love song again  
Say the words that heal my heart  
sing me a love song and then  
Let your words remind me who I am  
You've never failed me before  
Why do I feel betrayed  
If I close my heart to you now  
The darkness would have its way  
I crave your voice help me not fall away  
Will you please hold me  
'Cause you are all I need  
And all that I want is you with me  
You are all I need  
And all that I want is you with me
