

# Barlow Girl, Stay With Me

Hopeless, getting through this night  
And life is not dying in this fight  
I'm begging you to deliver me ooh ooh ooh  
Confused why you won't take this pain from me  
My steps never felt so hard  
The end never look so far but  
If you won't take me out  
Then please take me through this  
Stay with me so I won't leave  
And make me see that this is not forever  
'Cause all I need is your love pulling me  
What is the reason for this night  
Is hope found in fullness with no light  
Does strength grow in our greatest fears  
God I pray something good will come from this pain  
With you here I know  
I don't go alone  
I am yours and so  
Through the fire I'll go
