## BarlowGirl, Our Worlds Collide

Tonight the stars are dancing to the song the angels sing I hear Your whisper on the breeze And every sound echoes the rhythm of Your heart As I begin to fade into this lovely night, I'm alive 'Cause our worlds collide I'm lost in time, heaven kisses me tonight Your heart with mine, it beats in time Now I know why I am alive Now that I've found You, I could never let You go away You've left my life never the same Sing over me and let me hear the words You wrote for me Whisper the words that set my spirit free, sing to me 'Cause our worlds collide I'm lost in time, heaven kisses me tonight Your heart with mine, it beats in time Now I know why I am alive 'Cause our worlds collide I'm lost in time, heaven kisses me tonight Your heart with mine, it beats in time Now I know why I am alive
