

# Barren Cross, State Of Control

It's a world that won't let you feel  
You grow up very fast in sorrow  
The drinking damage a parent provokes  
Can ruin a child's tomorrow

No no no no do you feel you're abused  
By a bottle of liquor  
The alcohol will cause the fall

State of control  
It never wants to let you go  
State of control  
Like chains around your body and soul

There's no support they don't care at all  
You're lonely cause you feel abandoned  
But there's a way  
To heal the pain  
With God again and again

You know I know  
Keeping secrets from your friends  
That your mothers sick  
It's like I said being drunk is dead

State of control  
It never wants to let you go  
State of control  
Like chains around your body and soul  
And the soul of your children

You feel like you've always been walked on  
And frankly I don't blame you a bit  
I see your unhappiness and I say  
No no no no

State of control  
It never wants to let you go  
State of control  
Like chains around your body and soul
