Barren Cross, Time For Love

Round and round I want to get it down And then we'll rock this town when my Love comes down Give me what I really want give me what I'm looking for And give me something that won't be gone When I walk outside that door, Give me something right now Give me what I'm dreamin' of Lord it's time for love Time for love Time for love Time for love

Round and round it really gets around There's power to be found, can you hear it? Its name is love Got to get it into my soul, need a double shot of love And need the kind that'll still be there when the feeling's down below Time is here and right now, time for what I'm dreamin of Lord its time for love Time for love Time for love More than a feeling it's really love And it's more than I've felt before And it's easy to see on the day that I met my Lord Ain't nothin' better Than the kind I'm of dreamin' of, ya
