

# Barry Manilow, Here Comes The Night

The day is ending  
And the same old pain begins  
Each deeper shade of blue  
Brings back more of you to miss  
I fight the tears again  
But I just can't win and...

Here comes the night  
And here I go out of my mind again  
Here comes the night  
And here I go crazy missin' you  
Wanting you  
Needing you  
I just can't stand it

Here comes the night again  
I still remember  
You lyin' next to me  
The love would go so deep  
We wouldn't get to sleep at all  
These nights I'm losing sleep  
To a lonely memory

Here comes the night  
And here I go out of my mind again  
Here comes the night  
And here I go crazy missin' you  
Wanting you  
Needing you  
I just can't stand it

Here comes the night again  
Will it never end  
Why can't I get forever  
Here comes the night  
And here I go out of my mind again  
Here comes the night  
And here I go crazy missin' you  
Wanting you  
Needing you  
I just can't stand it  
Here comes the night again
